This is to certify that I have audited the accounts of Selectmen and Treasurer of said town of Freedom, N. H., for the year ending February 15, 1894, and find them correctly cast and proper vouchers for same.

OZRO F. PARSONS, Auditor.

REPORT OF ROAD AGENT.

Fellow Townsmen:

I submit the following report. You are aware and very well know the condition of our roads in the spring of 1893. Owing to the severe cold winter, the culverts and ditches were frozen solid, which turned the water into the roads, and caused them to be badly washed. Consequently it cost a great deal more to keep them in good condition. It was considered by the town at the last election that the bridges were in good condition, but on examination by the selectmen and the road agent, they were found to be in very bad condition. Consequently it cost about \$3.00 to repair them, for the two reasons stated above. The money raised by the town has not been sufficient to complete the work. If the bridges had been in good condition, there would have been plenty of money to keep the roads in good order both summer and winter.

We are glad to be able to announce that Freedom Free Public Library is in a flourishing condition and that it is well patronized by the people of the town. The expenditure of the money appropriated by the town, together with several volumes

kindly contributed by individuals, gives us a library of about 350 volumes, making reading matter for all classes and ages. We think money cannot be more judiciously expended, for the good and entertainment of the whole town, than by liberal and continuous appropriations for the benefit of our library, and we believe the wisdom and intelligence of our voters will cause them to vote an appropriation at the March meeting.

Respectfully submitted,

ARTHUR P. MERROW,
R. G. FOSTER,
GEO. W. LOUGEE,
Library Trustees.

REPORT OF THE SCHOOL BOARD.

We are pleased to report that the schools throughout town, during the past year, have been a decided success in all respects. The improvement made by the scholars has exceeded our expectations, and the teachers employed have all proved efficient workers; therefore we have no criticism to make in a single instance. By the liberal vote of the town at the last annual election, raising \$300 more than required by law, our schools have been much longer than heretofore, and we earnestly hope that they will soon see the great good derived from such a wise act; for all must well realize that the youth must soon fill the places of the older ones. The town has always stood well in educational matters, and we hope the time is not far distant when we shall have a graded school, which will not only make better advantages for schooling, but increase the value of our property and bring business to us.

During the year we thought best to make a change in one text book, namely, grammar, the one substituted being Raub's. The method of instruction in this series is extremely clear, for beginners especially, and we think by the marked improvement made, that the change was a good one.

Respectfully submitted,

H. B. NASON,

GEO. W. LOUGEE,

F. A. HARMON,

School Board.
